DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by White (3,800,788). White discloses, in figures 3 and 4, in col. 2, line 30 to col. 4, line 21, and in the abstract, a system adapted to push apart cortical bone surfaces (e.g., in the maxillary sinus cavity), where the system includes an expandable body (12) having a collapsed configuration and a passage (11) in communication with the expandable body and a source of fluid (e.g., saline solution, sterile water, or contrast media).
